This questionnaire is anonymous – please complete it without stating your personal data

1. What do you think of the reasons for the Investment Project?

Not justified. The execution of works related to the investment may pose a threat to the buildings at Mostowa Street (wetland).

2. How will the investment project affect your economic position (revenue)?

Without influence

3. What do you think of the strengthening of flood protection?

No protection as of today. The reconstruction of the bridge without strengthening the banks of the river and regulating its current will not improve the situation.
